Installing the software: Insert the Brain Products Application Suite USB stick and install the Recorder software as described in the User Manual. The User Manual can be found on the Application Suite USB stick.

Installing the license dongle: Plug in the USB dongle. The dongle driver is installed automatically. When installation is complete, the dongle will light up red.

Important: Your computer must be equipped with at least two USB2 ports for the software license dongle and the actiCHamp Plus amplifier.

Optional step: Insert the actiCHamp Plus modules to upgrade your system. Use a suitable screw driver to undo and tighten the screws. Disconnect the actiCHamp Plus completely before inserting modules.

Connect the actiCHamp Plus amplifier with the PowerUnit cable to the PowerUnit.

Connect the actiCHamp Plus with the USB cable to your computer.

Connect the GND electrode to the actiCHamp Plus amplifier.

Connect your electrodes to the actiCHamp Plus amplifier.

After use: Disconnect the PowerUnit from the actiCHamp Plus. For information about correct battery handling, please refer to the actiCHamp Plus operating instructions.

Caution: To ensure correct and safe use of the products, make sure that you also read the Operating Instructions carefully prior to operation.
Set Up Your
actiCHamp Plus System
