To insert or remove the battery of the MOVE transmitter:
1. remove the battery compartment lid by pushing it down
2. when the lid starts sliding out, drag and remove it completely
3. now you can insert or remove the battery

Switch the transmitter and the receiver on.

If the RX status LED on the receiver is green, then the communication is optimal.

Caution: To ensure correct and safe use of the products, make sure that you also read the Operating Instructions on DVD carefully prior to operation.
